CONNECTED WORKFLOW

One platform.
A clearer development path.

Move from feedback to context, coaching, and access.

01. Analyze

Use Technique AI to break down the video.

02. Add context

Read performance beyond raw numbers.

03. Fine-tune

Take the next step with coaching support.

04. Support access

Keep good gear moving through the community.

WHAT IT COVERS

Four connected layers.

Technique AI

Turns batting video into structured feedback players can actually use.

Analytics

Interprets performance through commentary, opposition quality, and game phase.

Coaching Marketplace

Helps players find the right coach and helps coaches reach the right students.

Gear Marketplace

Keeps usable cricket gear in circulation through buy, sell, and donate flows.

ANALYTICS DIFFERENTIATOR

Performance in context, not just on paper.

Goes beyond scorecards by using commentary and match context to show what matters and what to improve next.

Line-by-line commentary

Uses match detail, not just top-level totals.

Weighted value

Measures impact with context, not as a fiat number.

Opposition strength

Interprets output against stronger opposition differently.

Phase-of-game view

Separates powerplay, middle overs, and death overs value.
